Dear Susan,

I'm the disabled veteran whom spoke with you about the wonderful entourage from your studio, to entertain our veterans that are housed at the V.A. Medical Center. I'm taking this opportunity to thank you in behalf of all our veterans and especially your very lovely young ladies (Angels) because I had a dream and thought I was in heaven where I was greeted by a beautiful angel who asked what I was doing in heaven when I wasn't called for and I had to go back and continue what I was doing. I'm not dreaming now and would love to have any one of these lovely performers as a daughter, your program that you brought to us was beautiful and was enjoyed by all of us. We went to war to protect the freedom of our citizens like these young ladies and know that they will be dedicated to our great country the (United States of America)

Sincerely
Theodore Sulkowski
